1. Finding the Secret Entrance

1. From the main plaza, head north and jump onto the stone ledge.
2. Traverse the narrow bridge that swings over the chasm; avoid the falling debris.
3. On the far side, search the alcove behind the broken statue. A hidden lever will reveal a staircase.
4. Climb down and use the torch to light the dark corridor.

2. Navigating the Puzzle Corridor

1. In the first chamber, you'll encounter a series of pressure plates.
2. Use the goblin's "Jump Boost" ability to hop across the plates in the correct sequence.
3. Remember the pattern: **left, right, left, right, center**.
4. Once the path clears, a hidden door opens to the next area.

3. The Guardian of the Vault

The Guardian is a massive stone golem that attacks with seismic waves and crushing blows. Here's how to defeat it:

- Keep moving to avoid the seismic shockwave.
- Attack when the Guardian's shield lowers after it charges.
- Use the "Flame Burst" spell to break its shield quickly.
- When it summons minions, prioritize them first to reduce incoming damage.

4. Retrieving the Artifact of Dawn

Inside the vault, the Artifact sits on a pedestal surrounded by a field of swirling light. To claim it:

1. Activate the pedestal's crystal by stepping on the surrounding tiles.
2. Once the pedestal lights up, pick up the Artifact.
3. Be aware that the vault will begin to collapse after a short delay.

5. Escape Sequence

The final escape requires quick reflexes and careful timing.

- Run through the narrow tunnel while avoiding falling rocks.
- Use the "Dash" ability to jump over the last obstacle.
